

Machine Learning Engineer Resume

Technical Skills

Programming

Python
C++
SQL

Machine Learning

Scikit-learn
TensorFlow
PyTorch
XGBoost
LightGBM
MLflow

Backend

FastAPI
Flask
REST API

Cloud

AWS
Docker
Kubernetes

Databases

PostgreSQL
MongoDB

Tools

Git
GitHub
Linux
Jupyter Notebook

Education

Bachelor of Technology
Computer Science Engineering
Expected Graduation: 2026
CGPA: 8.82

Certifications

- Machine Learning Specialization
- Deep Learning Specialization
- AWS Cloud Practitioner

Achievements

- Finalist in National AI Hackathon.
- Solved 500+ coding problems.
- Built and deployed multiple ML applications.

Profile

Machine Learning enthusiast with experience building end-to-end ML pipelines, deploying models using FastAPI, and implementing deep learning solutions using TensorFlow and PyTorch.

Projects

House Price Prediction

- Built regression models using Scikit-learn.
- Performed feature engineering and model tuning.
- Achieved R^2 score of 0.97.

Image Classification

- Developed CNN models using TensorFlow.
- Applied transfer learning for improved accuracy.
- Achieved 95% validation accuracy.

Fraud Detection System

- Built anomaly detection pipeline.
- Used XGBoost and Random Forest.
- Deployed model using FastAPI and Docker.
